

YOUR GUIDE TO GETTING STARTED...

USING WASHNET

- Go to washnet.co.uk or download the washnet app from your phones app store.
- Create an account & select your nearest location from the list of laundrettes, your closest 3 are geo-located!
- You can reserve a machine for up to 10mins from your room. (Do not pay until you are in the laundry room)
- Choose the washer or dryer you'd like to use by selecting start or resume payment.
- Check your care labels and select the correct cycle you want to use and proceed with making the payment.

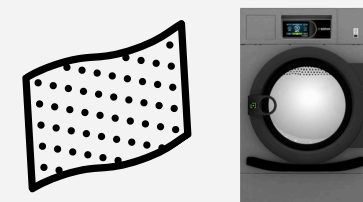

USING YOUR MACHINES

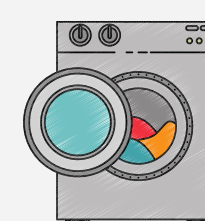

- Load your machine between 1/4 & 3/4 full. For optimal results we recommend halfway.
- For the washers, add your detergent directly in to the drum and close the door.
- For the dryers, make sure you clean the lint filter before and after use.
- Once the payment has been made, you can press start or 'select cycle' on the machine.
- You will receive an email or notification when there is 7mins left of the wash cycle.

Check your pockets before you wash and dry.

Make sure you clean the lint filter before use.

Fill the machine below 3/4 to prevent overloading.

Check the care labels on your garments!

Washstation
Smart. Green. Clean.
